WHERE OUR STUDENTS ARE WORKING

ALUMNI TALK

Nishant Kharecha

Business Development Manager, Center of Excellence (Saurashtra University)

I thank the Department of Business Management and faculties for making me who I am today, because without that foundation I would be nowhere; all those people who helped, mentored and built us into where we are in our lives.

What did I take away from this institute?

The best thing I learn was "Think out of BOX". I applied the same thing in my life, it always helped me making things easy going, because if you look at anything in a multi-dimensional context, you will find a better solution.

It is always believed that, time flies when you are spending the most precious moments of your life. I came to realize that it was certainly true, as the days spent here at our department came to an end. Things I learnt, experiences I gained, and the real self that I found here, are unforgettable. Under the safe and polishing hands of our faculties, we came out just like butterflies from their cocoon. Being leader in college life as well as in real life has made the differences today. That's all because of the Department of Business Management, rather I would say, Our Department of Business Management.
